Huntsville–Area MPO Overview

The Huntsville Area MPO, formally known as the Huntsville Area Transportation Study (HATS), was established in the 1970s by the Governor of the State of Alabama. The HATS/MPO operates under a signed agreement concerning the transportation planning process for the Huntsville Urbanized Area. The updated agreement signed by Madison County; the Municipalities within Madison County; the State of Alabama; and the Top of Alabama Regional Council of Governments, indicates that the Huntsville Urbanized Area will carry out a 3-C (cooperative, comprehensive, and continuing) transportation planning process.

TITLE VI POLICY STATEMENT

The Huntsville–Area Metropolitan Planning Organization (MPO) is committed to the compliance with Title VI of the Civil Rights Act of 1964, the Civil Rights Restoration Act of 1987, and all related rules and statutes. The Huntsville–Area MPO assures that no person or group(s) of persons shall, on the grounds of race, color, age, disability, national origin, gender, or income status, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under all programs, services, or activities administered by the Huntsville–Area MPO, whether those programs are federally funded or not. It is also the policy of the Huntsville–Area MPO to ensure that all its programs, policies, and other activities do not have disproportionate adverse effects on minority and low-income populations. Additionally, the Huntsville–Area MPO will provide meaning access to service for persons with Limited English Proficiency.

Annual Listing of Obligated Projects Fiscal Year 2025

Purpose

The purpose of this report is to provide a list of federal highway and transit funded projects obligated in the previous fiscal year. A project is considered obligatory when a funding contract has been completed, or a grant has been awarded. The report includes all projects within the Huntsville–Area MPO study area obligated in fiscal year 2025, which ran from October 1, 2024, through September 30, 2025.

Laws and Regulations

The laws governing Metropolitan Planning Organizations (MPOs) are established in 23 U.S.C. §134 and 49 U.S.C. §5303, which outline the federal requirements for metropolitan transportation planning. These statutes were amended and reauthorized by the Infrastructure Investment and Jobs Act (IIJA), enacted in November 2021. The implementing regulations for MPOs are published in the Code of Federal Regulations at 23 CFR Part 450, Subpart C, which details the metropolitan transportation planning and programming process. 23 CFR §450.334 specifically addresses the requirement to prepare an annual listing of obligated projects.

Transportation Improvement Program (TIP)

The list of obligated projects begins with the Transportation Improvement Program (TIP). Federally funded projects must be included in the TIP. The TIP is a prioritized list of transportation projects adopted every four years by the MPO. The projects in the TIP are taken from the 2050 Long-Range Transportation Plan. The Plan covers a 20–25-year time frame, while the TIP extends over four years.

Table Format

The table is sorted by project Sponsor. The Project Number refers to the Alabama Department of Transportation project management identification code. The scope represents the phase of the project.

In general, most road projects are divided into preliminary engineering (PE), right-of-way (ROW), utility relocation (UT), and construction (CN). Generally, the description starts with the type of work, followed by the road name. The Alabama Department of Transportation provided the project listing through their online portal program.

The amounts listed in the “Engineer Estimate” identifies the estimated federal funding amount. The “Fed. Obligated” column shows how much funding was committed so far. The funds in the “Fed. Expenditure” column represents what has been spent on the project. The “Balance” numbers are the amounts that have not been used. If a project is marked with a “B/P” in the last column, it includes bicycle or pedestrian facilities.

Summary of Obligated Projects

A total of **\$16,662,928** was obligated for the Huntsville–Area MPO study area during fiscal year 2025. Roadway projects undertaken by the Alabama Department of Transportation accounted for **\$13,043,900** of that amount.
